To Whom It May Concern:

Re: **LEGAL ACCOUNTING BUREAU LIMITED**

I would confidently recommend Legal Accounting Bureau Limited which is operated and owned by Kathy Kell. Legal Accounting Bureau Limited provides me with reliable book keeping services for my trust account and it comes from the depth of experience of their personnel.

Unlike dealing with larger operators in the market I like being able to deal direct with one particular person. Kathy knows what I require from a legal accounting bureau and I get excellent service from her. I like to have my postings done on a daily basis and up to date when I need to review my ledgers and Kathy and her team enable this to happen.

The costs for their services are comparative with the market and yet I receive top grade service.

The fact that Legal Accounting Bureau deal on the Junior Partner system rather than the Law Society Database also appealed to me as this is the system I prefer for my legal firm as I deal with the same system in house.

I have been with Legal Accounting Bureau since March 2010 and have had no complaints or problems and would highly recommend Legal Accounting Bureau to any fellow practitioners wanting better service for their law practices.
